

# **Educating California's Small and Ethnic Minority Farmers: Ways to Improve Fertilizer Use Efficiency Through the Use of Best Management Practices (BMPs)**

## **Project Leader**

Ronald Voss,  
Dept. Vegetable Crops  
UC Davis

## **Summary**

This project, conducted by the UC Davis Small Farm Center, conducted an outreach program for small farmers and farmers of Hispanic and South Asian heritage. Growers were taught-regionally specific techniques for efficiently managing N in their cropping systems. Three field days were held in San Diego, Fresno and Monterey counties, reaching a target audience of approximately 100 people. A basic written curriculum with slides was produced in Laotian, Spanish and English.
